

## GCSEs Results Day: Thursday, 20th of August 2020

- Year 11 students should arrive between **10.00am to 1.00pm** via the gate on **Queensbridge Road**. External Year 11 students should arrive from 1.00pm via the school reception on **Weymouth Terrace**.
- Students will be directed to the canteen where they will receive an envelope with their results along with information about appeal processes and how estimated grades were decided
- Students staying at Haggerston School will need to complete online enrolment forms.
- All students will have to complete online forms before they can exit the school building to confirm their destination information for post-16 education.

Please note that staff will be available to support with guidance about sixth-forms and colleges and we strongly advise all students to attend by 1pm on the 20th August to ensure they take full advantage of this additional support. Career advisors will also be in school to offer additional support and information about alternative courses from other colleges. The school will also have photographers present to share student success.

**Results will not be available on any other day(s) during the holiday. If students do not attend on the day noted above, the school will post their results to their home address (which is the address we have for the student on our system/database). The results, released as a 'statement of results', are required as proof of qualification for enrolment to student destinations. Therefore, it will be important that all students try to collect their statement of results in person on the relevant date.**

**If it is the case that someone will collect the results on behalf of the student, the following needs to be completed so that the results can be released:**

- The student, whose results will be collected, needs to send a letter to the Examinations Team at the school's address by **Thursday, 6th of August**, signed by themselves and stating the full name of the person collecting the results on their behalf.
- The person who will retrieve the results needs to bring a **photographic** proof of identification with them on the day of results, matching this letter.

Examination Certificates will arrive at the school in the autumn, and we will make contact at this time to request that students come into the school to collect them.

Should a student wish to appeal against their results, they will need to return their Appeal Request form to the school office by **Friday 28th August**. You can find more information about the appeal process here: [Examinations Appeals Process](#)

Information will be shared with students during results day when they will receive a letter along with their results to clearly outline the appeal process.

Due to the COVID-19 (coronavirus) outbreak, we have made the decision **not to allow any students' family members or friends** to enter the school site during these results days. We are also asking students not to gather in front of the school building before the start of results day. We are also urging students to promptly make their way back home once they have left the school site.

### Procedure used to allocate estimated grades

In line with the guidance by Ofqual and the Department for Education, our school completed a rigorous, layered and fair process for submitting estimated grades for students who were entered for public examinations. Prior to the start of lockdown nationally on 20/03/20, we had recently completed pre-public examinations and the entry of data based on these as part of our DPR cycle as school. This meant that the school had accurate recently moderated data for students to inform staff decisions.

Each teacher reviewed this data along with historic data, such as previous performance in assessments, classwork and homework. Teachers entered an estimated grade and a confidence rating which reflected how secure a student was in relation to that grade in that subject. This data was quality assured by the Head of Subject (HOS) and/or the Head of Faculty (HOF) for that subject at this point. The confidence ratings were used to rank order students across the subject cohort.

The estimated grades, confidence ratings and rank orders were then quality assured again by the HOF and the Senior Leader (SLT) who was the line manager for the relevant subject.

Following this, the data was then quality assured once more by a Deputy Headteacher and the School Data Manager, checking for unconscious bias, accuracy and consistency across all subjects.

Following this final quality assurance, the data was submitted with the relevant examination boards in line with their published deadlines. Each examination board has been reviewing and moderating the data submitted to make final decisions about the grades for students in each subject at GCSE and A-Level. These final grades are what students will be issued with on their day of results, 13/08/20 for A-Level and 20/08/20 for GCSE.
