

# Science at Haggerston

Science can include practical activities to help us understand the world around us. We conduct experiments to test our theories. The next few documents have suggestions for experiments you can do at home. If you decide to complete these experiments please ask an adult to help you; your safety is important. Take pictures and write a paragraph:

1. Describe what you did
2. Explaining what happened.

You might want to look at [BBC bitesize](#) to help.

Include any photos you take, or draw some diagrams!

Send your reports to [transition@haggerston.hackney.sch.uk](mailto:transition@haggerston.hackney.sch.uk)

Good Luck & Stay Safe!
